Learning Log: Think about data in daily life

Instructions

You can use this document as a template for the learning log activity: Think about data in daily life. Type your answers in this document, and save it on your computer or Google Drive.

We recommend that you save every learning log in one folder and include a date in the file name to help you stay organized. Important information like course number, title, and activity name are already included. After you finish your learning log entry, you can come back and reread your responses later to understand how your opinions on different topics may have changed throughout the courses.

To review detailed instructions on how to complete this activity, please return to Coursera: Learning Log: Think about data in daily life.

Date: <enter date>	Course/topic: Course 1: Foundations: Data, Data Everywhere
	Learning Log: Think about data in daily life
Everyday data	Create a list of at least five questions: 1.What's the best time to go to the college? 2.How does the length of your commute to work vary by day of the week? 3.How many times I check my phone each day? 4.What type of product do customers buy? 5.How many hours of sleep do you get each day? Now, select one of the five questions from your list to explore. *Selected question: Type your response here*
Reflection:	Write 2-3 sentences (40-60 words) in response to each of the questions below.
Questions and responses:	● What are some considerations or preferences you want to keep in mind when making a decision? *I want to keep in mind the origin of the data, how diverse is the data, to whom or where I will apply these decisions.* ● What kind of information or data do you have access to that will influence

	your decision? *The number of times that ones' checked the phone.* ● Are there any other things you might want to track associated with this decision? *The time length between each phone check, time of the day.*
